## INTERSHIPS

### Back-End Developer

#### Cost-Effective Solutions - За Земята

11/2024 - 04/2025

"За Земята" is a website that retrieves and filters news data from various Regional Inspectorates for Environment and Water, enabling users to search news articles by keywords for fast and relevant information access.

##### Tasks/Achievements

- ◊ Led the development of the scraper, handling most of the tasks. I also assisted other team members, tested the code, and was responsible for resolving all identified bugs.

### Back-End Developer

#### Cost-Effective Solutions - Time Management Project [Live] [↗](#)

05/2024 - 10/2024

Time Management Project is a web-based system designed to streamline project tracking and reporting for businesses.

##### Tasks/Achievements

- ◊ Collaborated with a team to develop the server-side application. Actively contributed to building nearly every feature and played a key role in improving the application's overall performance.

## EDUCATION

### Bachelor's Degree in Software Engineering (Distance Learning)

#### University of Plovdiv "Paisii Hilendarski" Faculty of Mathematics and Informatics

2024 - 2028

### Full-Stack Web Developer

#### Software University

12/2020 - 05/2024

##### Professional Modules

- ◊ C# Full-Stack Developer: Gained a strong foundation in software development with a focus on server-side applications. Developed full-stack projects using modern frameworks such as React and .NET, and worked with both relational and non-relational databases. Gained practical experience with CI/CD pipelines to automate build, test, and deployment processes.

## PERSONAL PROJECTS

### BuildingCo [Live] [↗](#)

- ◊ Developed a fully responsive website for a construction company within 2 days using Next.js and Tailwind CSS. Delivered a modern UI with dynamic sections for services, projects, and contact, ensuring both performance and usability.
